HEBEI PROKEY TECHNOLOGY CO.,LTD

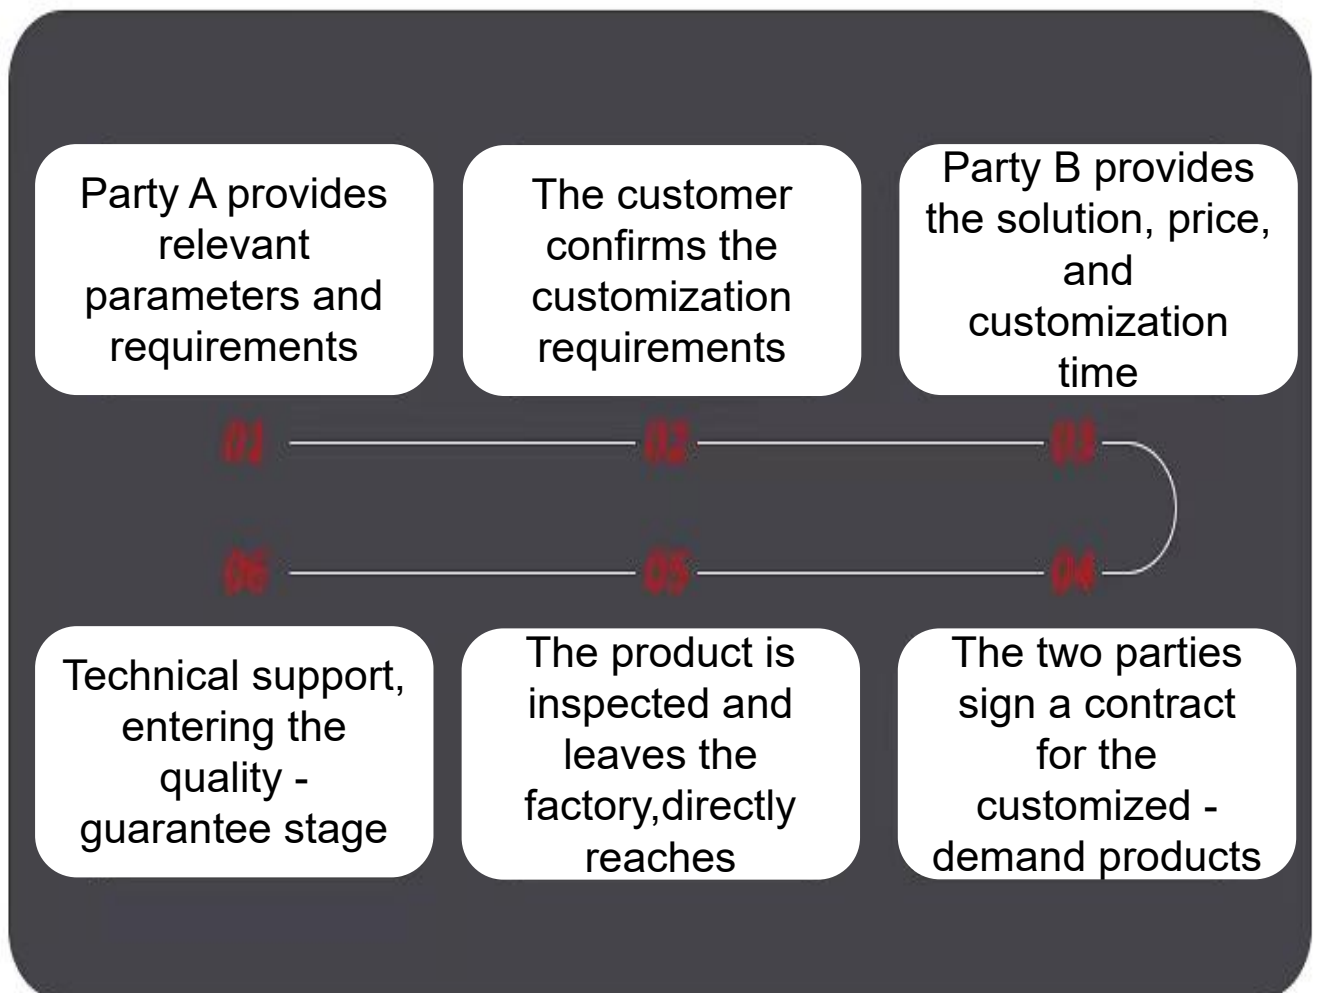

PROKEY

HEBEI PROKEY TECHNOLOGY CO.,LTD founded in 2011, is dedicated to R&D, manufacturing and sales of industrial automation control products. Relying on high quality, high performance automation control products and solutions to create maximum value for customers, determined to become the world's leading industrial automation solutions supplier.

Overall Customization Process

Customized products can be customized according to drawings or personal requirements, with a rich variety and quality assurance.

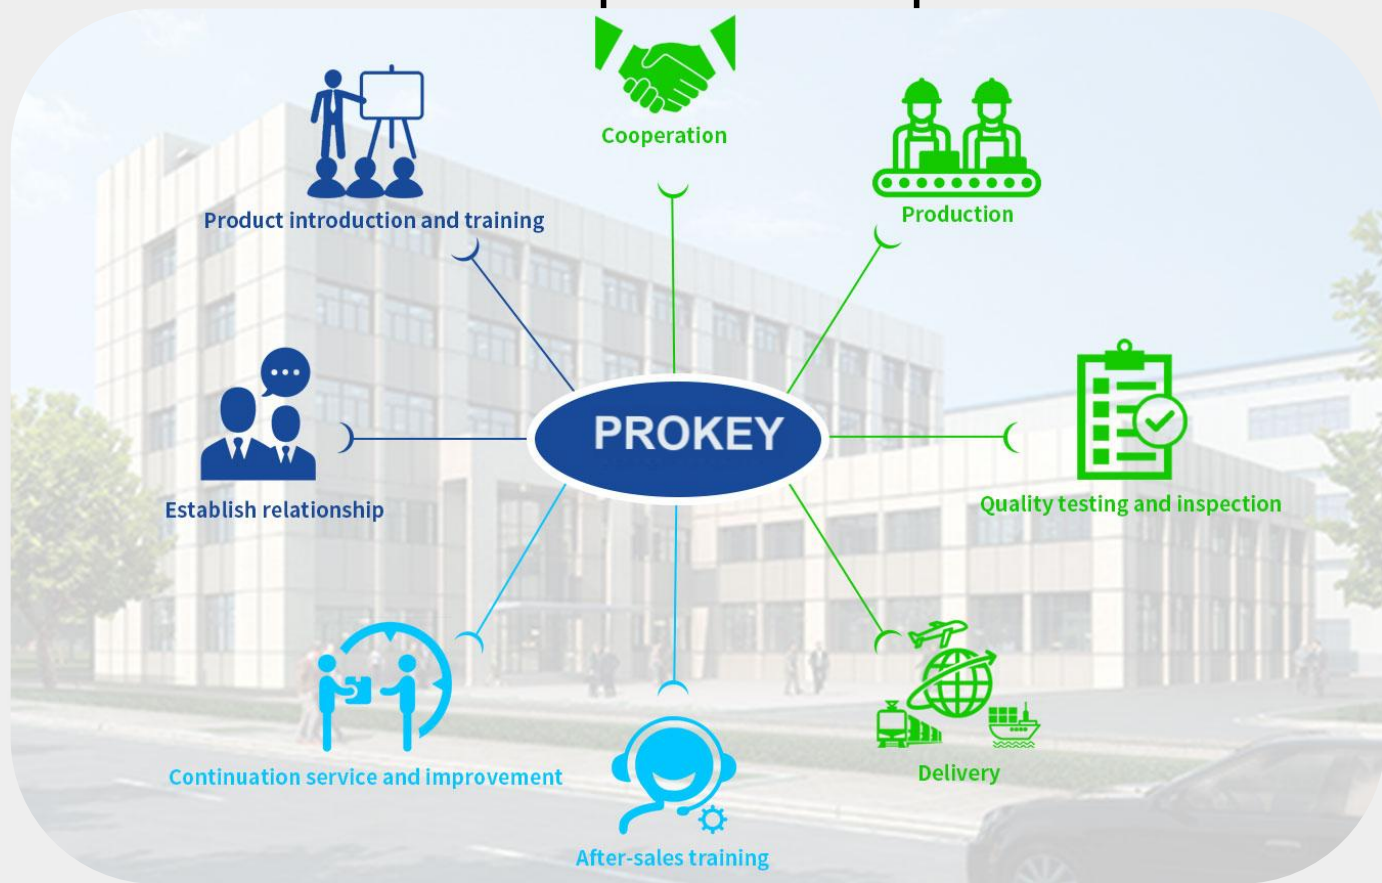

Customization Instructions

Before purchasing, buyers are required to provide drawing sketches or describe the usage functions. Our online engineers will customize products for you.

Due to the special nature of customization, once the Distribution Boxes and PLC are produced and delivered, they cannot be returned, exchanged or have their plans changed.

It is recommended to place orders carefully.

Customized Experience Optimization

Cooperating stably with multiple giant component enterprises

Create PROKEY quality with excellent technical strength

Optional PLC

ABB/Siemens/Schneider

Optional PLC

Panasonic/Inovance/Mitsubishi/Omron

Optional components

Chint/Delixi/People's Electric Appliance
Prokey/Jiudian Electric/Schneider

You can specify the
brand according to
your needs

Multiple - brand components available

**Use branded components
to reject hidden dangers inside the cabinet**

Genuine Product Guarantee

CHINT

**Schneider
Electric**

EATON

SIEMENS

OMRON

 **TENGEN**

EPSON®

 **PHOENIX
CONTACT**

Panasonic

ABB

PLC自控柜

PLC automatic control

Support mobile phone
remote control

The device's operating status
is clear on your phone

Customization Services

Customization can be made according to drawings or personal requirements, such as cabinet dimensions, component specifications, etc.

Box size

Hole - opening require

Color customization

GGD/GCK

Material thickness

Custom by drawings

Component requirements

Other customizations

Choose thickened steel plates as materials

Optimal cold - rolled steel plates:

Resistant to wear and rust, sturdy and durable

Product Details

Exquisite Craftsmanship and Quality

Details + Quality

The portable handle

Brand components

Install components from well - known brands in the industry for assured quality

The portable handle

National - standard copper busbars

The power distribution cabinet is installed with national - standard copper wires, ensuring greater safety under high - current operating conditions

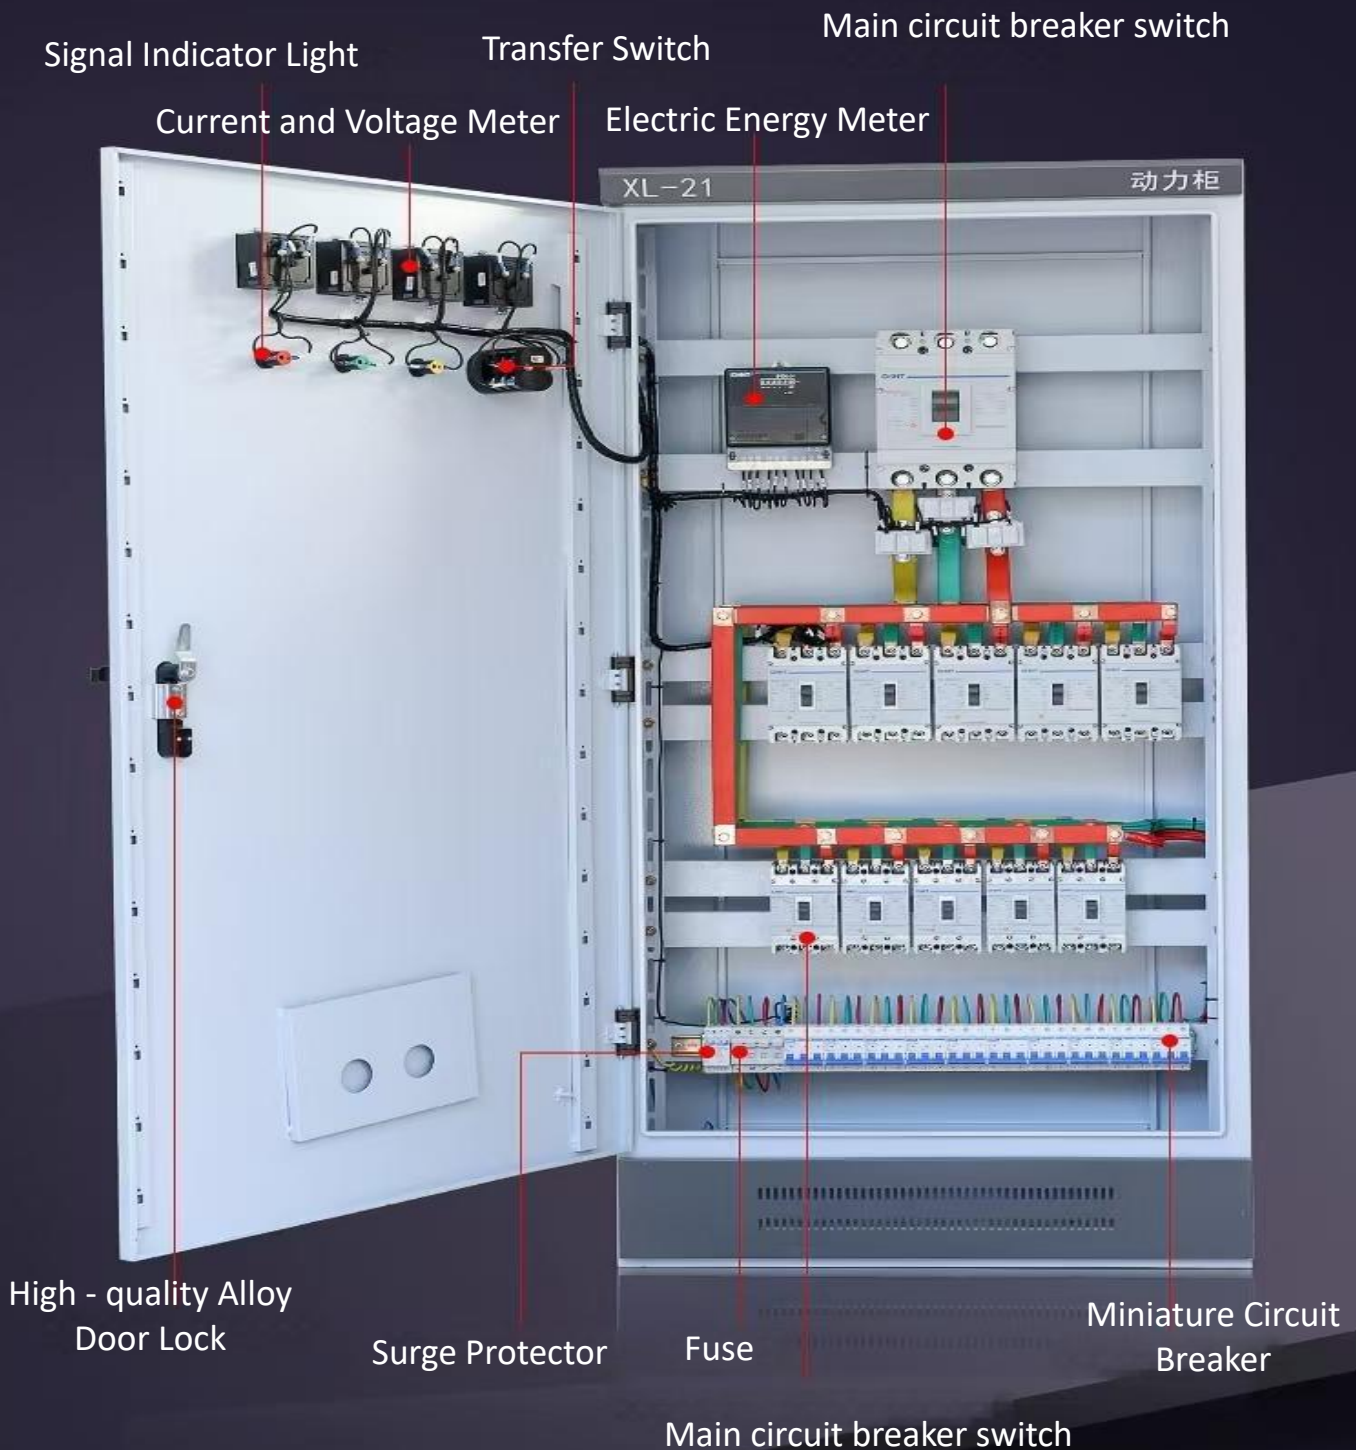

The portable handle

Current and voltage meters

It is convenient to observe and detect the values of current and voltage at any time

Product Analysis

Suitable for Various Places

It has a wide range of applications, covering heavy - industry, aerospace, petroleum, large - scale machinery, maritime ports, etc.

Production Workshop

Airport

Petroleum

Large - scale Machinery

Residential Community

Maritime Port

Finished - product Case Display

A full range of product styles.
